Receive DAVANTIS video analytics alarms in your Micro Key —

DAVANTIS is 100% devoted to video analytics for perimeter security. Over 15 years investigating beyond the obvious, using powerful and state-of-the-art algorithms to boost your cameras.

The **MICRO KEY** Solutions staff of experts have been helping security alarm dealers, monitoring centers, schools, government facilities, retail companies, and other organizations run their businesses for over 35 years. We offer a robust solution at an affordable cost for all budget

ranges. From accounting and service tracking to monitoring automation – we offer better solutions, made easy.

Now you can monitor DAVANTIS accurate video analytics alarms in your Micro Key monitoring software.

ClickThru™ technology

Our exclusive technology is a unique, simple, efficient system integrated into all CMS, VMS and PSIM.

Security in 3 Clicks

Click 1
Snapshot
with a box highlighting the cause of the alarm.

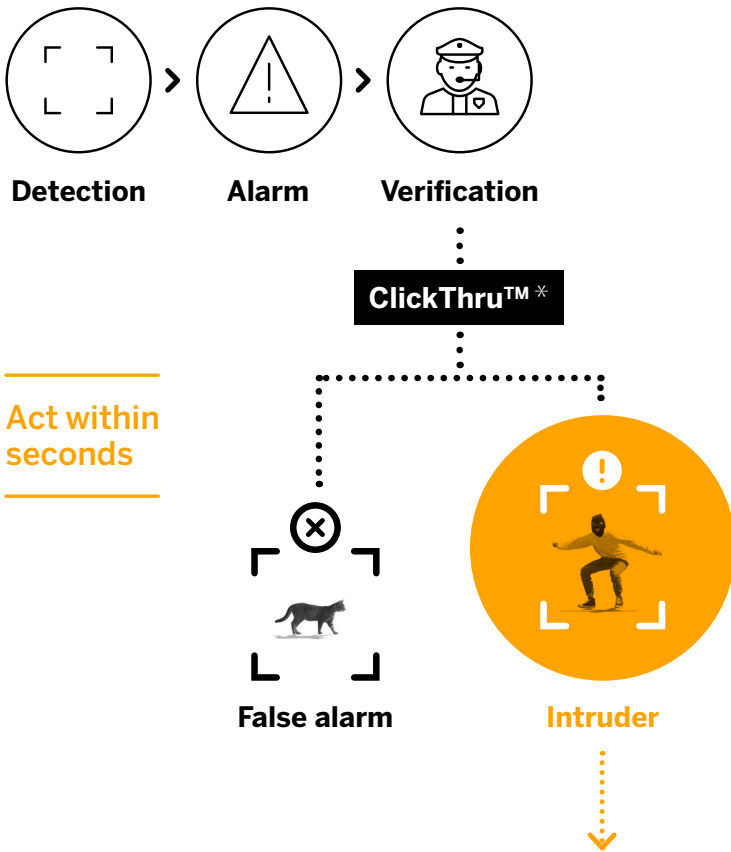

Click 2
Video
of the alarm at the activation point.

Click 3
Live access
to the camera for immediate verification.

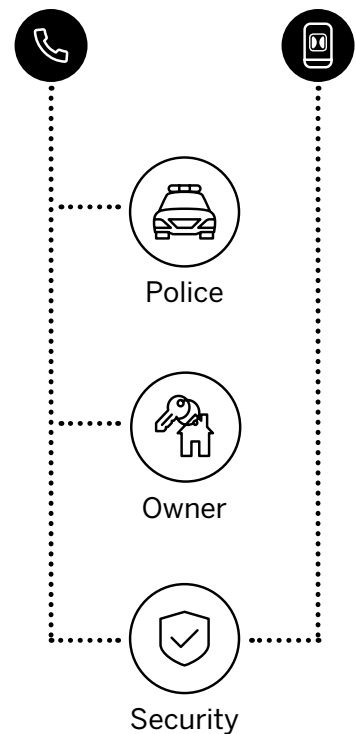

Why DAVANTIS? —

With us you will always know what triggered the alarm

Having verified the presence of an intruder, the system facilitates remote activation of deterrent devices.

Your security staff can use our app to monitor the site and act within seconds.

How do you connect DAVANTIS with Micro Key? —

Integrated Security

Manage more installations with fewer resources

Alarm management

Daview AMS server

Micro Key

Daview AMS gives you total control over your sites:

- Pooling - Connection health monitoring
- Remote access for maintenance
- Support Network and server redundancies

Our Daview AMS server acts as a central alarm receiver that allows Micro Key to:

- View alarms with ClickThru™ technology
- Receive alarms in SIA format
- Receive technical alarms
- View smart PTZ videos
- Activate remote outputs
- Bidirectional audio to communicate with installations
