Receive DAVANTIS video analytics events in your Nx Witness VMS —

DAVANTIS is 100% devoted to video analytics for perimeter security. Over 15 years investigating beyond the obvious, using powerful and state-of-the-art algorithms to boost your cameras.

Nx Witness VMS is a lighting fast, easy to use, cross-platform IP video management system (VMS) / video surveillance software designed to discover, view, record, and manage IP video cameras so you can monitor, analyze and react to

critical events in real time. Nx Witness video surveillance software with Cloud, Desktop, Mobile, and Browser applications that make it easy to connect to and manage your IP cameras from anywhere, anytime.

“ Nx Witness has always been designed to be open and easily integrated with any third party application. The new integration with the industry leading DAVANTIS analytics system reinforces our ability to be unlimitedly extensible and flexible to meet the needs of any project by adding highly accurate perimeter detection and identification capabilities to our forever evolving software.

James Cox, Europe Manager of Network Optix

”

Total freedom to design the best CCTV installation —

Beyond Deep Learning

DFUSION combines our market-leading videoanalytics, with the most advanced Deep Learning technology.

Proprietary technology,
compatible with third
party systems

Real time alarm verification

Quick, easy and reliable alarm verification to react within seconds.

Click 1 Alarm

Click 2 Video Clip

Click 3 Live camera

How do you connect DAVANTIS with Nx Witness VMS?

Basic Integration - Only Events/Alarms

Full Integration - Events/Alarms + RTSP

Technical specifications

Nx Witness VMS

DAVANTIS intruder alarms
Access to live camera and recorded video retrieval

Requirements

Network Optix: v3.0 or higher
DAVANTIS: v192 or higher
