

DAVANTIS partner in Norway

DAVANTIS are pleased to announce an exciting new partnership in Norway with Focus Security for the supply of our latest generation of Perimeter Security Analytics.

Focus Security are a specialist provider of **Security Technology solutions** with leading edge innovations based on quality and effectiveness in securing and protecting their customers. This marks a key strategic move for DAVANTIS to continue to widen its reach across the Nordic region, with strong partnerships based on specialist skills and knowledge - to raise the expectations of installers,

monitoring stations and **end-users across Norway, Sweden, Finland, and Denmark.** In doing so, we aim to provide better solutions and add better choice into what has been a static marketplace for some time and to deliver something better and more effective for Perimeter Security using next-generation hybrid video analytics combining Deep Learning AI, and Advanced Machine Learning technology - far exceeding previous expectations over traditional video analytics, with new increased detection accuracy whilst delivering massive false alarm reduction that is designed to cope with

Combining Deep Learning AI, and Advanced Machine Learning technology

modern building design and sustainable green environmental standards.

DAVANTIS are looking forward to working closely with Focus Security in the coming months and years to transform the way in which video analytics are deployed and the benefits they bring.
