

# Integration DAVANTIS - SYNERGY 3

Command and  
Control Platform

# Receive DAVANTIS video analytics alarms in your SYNERGY 3 Command and Control Platform —

**DAVANTIS** is 100% devoted to video analytics for perimeter security. Over 15 years investigating beyond the obvious, using powerful and state-of-the-art algorithms to boost your cameras.

**SYNERGY 3** is an intelligent surveillance and security

solution, integral to the efficient operation of control rooms around the world.

The DAVANTIS integration to Synergy 3 allows the operator of Synergy 3 to receive alarms from DAVANTIS, along with a snapshot of the triggering event and the associated

video. This is delivered from either directly from the camera or the DAVANTIS software with additional video markup via ONVIF. Synergy can then be used to further action workflows or automated macros to view and control the incident response.

## ClickThru™ technology

Our exclusive technology is a unique, simple, efficient system integrated into all CMS, VMS and PSIM.

## Security in 3 Clicks

### Click 1

**Snapshot**  
with a box highlighting the cause of the alarm.

### Click 2

**Video**  
of the alarm at the activation point.

### Click 3

**Live access**  
to the camera for immediate verification.

# Receive DAVANTIS video analytics alarms in your SYNERGY 3 Command and Control Platform —

“

A fuss-free and straightforward integration combining the power of Synergy 3 with DAVANTIS video analytics for intuitive response and insight. We are passionate about working with the leading companies in our industry and the relationship with DAVANTIS is a perfect example of our technology partnerships.

**Sreenath Namelil, Product Manager, Synectics**
