Receive DAVANTIS video analytics alarms in your SCMS from ATTIA

DAVANTIS is 100% devoted to video analytics for perimeter protection. More than a decade investigating beyond the obvious, using powerful and state-of-the-art algorithms to boost your cameras.

Security Control Monitoring System from ATTIA works on cloud and is designed specifically to operate convenient and simple event handling. With this software you can better manage your customers by the groups

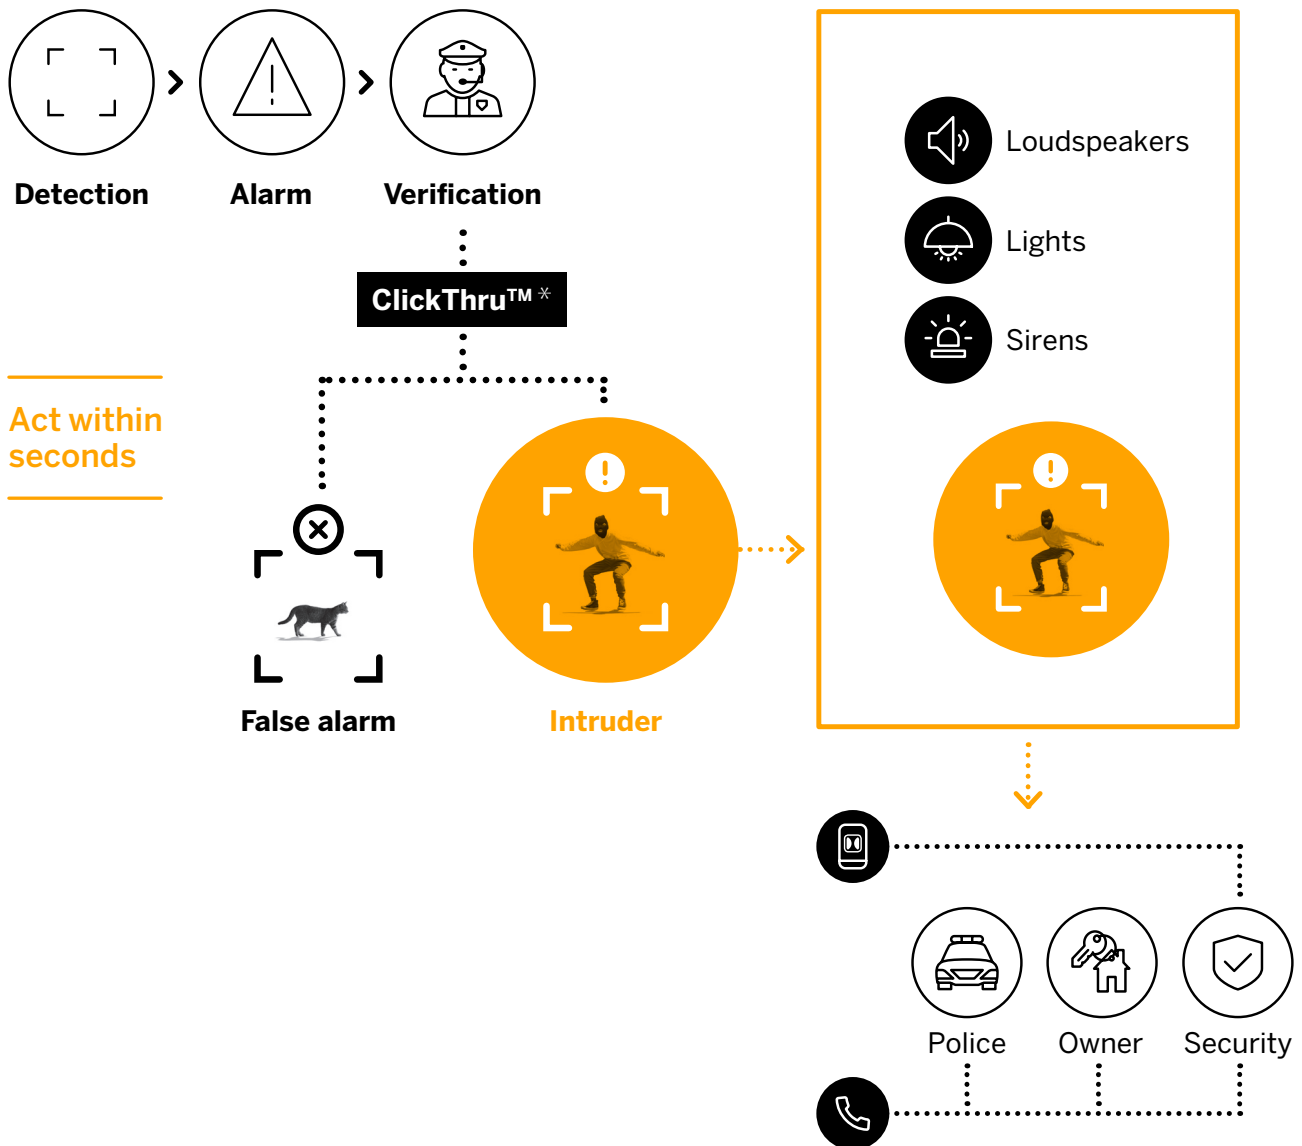

method we have developed over the years. Each user gets a group of customers to handle them, this option lets your security system be the best for your clients.

“ The integration with DAVANTIS is simple and efficient. The ATTIA monitoring station system is always connected to all DAVANTIS devices and alerts the operator with a snapshot and a video clip when the system detects an intrusion. All the alert information is saved in the ATTIA system, and can be reviewed at any time.
