Receive DAVANTIS video analytics events in your Qognify VMS —

DAVANTIS is 100% devoted to video analytics for perimeter security.

Over 20 years investigating beyond the obvious, using powerful and state-of-the-art algorithms to boost your cameras.

The Qognify VMS platform, developed by Hexagon, is a video management solution designed for environments where security, reliability and integration are a priority. Thanks to its open architecture, easy connectivity with multiple systems is possible, making it easy to adapt to any existing infrastructure.

Another feature of Qognify is its operational robustness, which ensures service continuity even in critical situations.

Now you can receive DAVANTIS video analytics events in your Qognify solution.
