Receive DAVANTIS video analytics alarms in your Synergy Security and Surveillance Software _

DAVANTIS is 100% devoted to video analytics for perimeter security. Over 15 years investigating beyond the obvious, using powerful and state-of-the-art algorithms to boost your cameras.

SYNERGY is an intelligent surveillance and security solution,

integral to the efficient operation of control rooms around the world.

The DAVANTIS integration to Synergy allows the operator of Synergy to receive alarms from DAVANTIS, along with a snapshot of the triggering event and the associated video. This is delivered from either directly from the camera or the DAVANTIS software with additional video markup via ONVIF. Synergy can then be used to further action workflows or automated macros to view and control the incident response.

ClickThru[™] technology

Our exclusive technology is a unique, simple, efficient system integrated into all CMS, VMS and PSIM.

Security in 3 Clicks

Click 1

Snapshot with a box highlighting the cause of the alarm.

Click 2 Video of the alarm at the activation

point.

Click 3 Live access

to the camera for immediate verification.

Receive DAVANTIS video analytics alarms in your Synergy Security and Surveillance Software _

"

A fuss-free and straightforward integration combining the power of Synergy with DAVANTIS video analytics for intuitive response and insight. We are passionate about working with the leading companies in our industry and the relationship with DAVANTIS is a perfect example of our technology partnerships.

Sreenath Namelil, Product Manager, Synectics
