# Receive DAVANTIS video analytics alarms in your Synergy 3 Command and Control Platform \_

**DAVANTIS** is 100% devoted to video analytics for perimeter security. Over 15 years investigating beyond the obvious, using powerful and state-of-the-art algorithms to boost your cameras.

**SYNERGY 3** is an intelligent surveillance and security

solution, integral to the efficient operation of control rooms around the world.

The DAVANTIS integration to Synergy 3 allows the operator of Synergy 3 to receive alarms from DAVANTIS, along with a snapshot of the triggering event and the associated video. This is delivered from either directly from the camera or the DAVANTIS software with additional video markup via ONVIF. Synergy can then be used to further action workflows or automated macros to view and control the incident response.

### ClickThru<sup>™</sup> technology

Our exclusive technology is a unique, simple, efficient system integrated into all CMS, VMS and PSIM.

### Security in 3 Clicks

Click 1 Snapshot

with a box highlighting the cause of the alarm.

#### Click 2 Video of the alarm at the activation

point.

Click 3

Live access to the camera for immediate verification.
